YASMINA OMAR BARAKAT

JUNIOR SOFTWARE TESTER

ISTQB CTFL Certified | Manual QA | Database, API and Automation Testing

Portfolio: https://portfolio-yasmina99.vercel.app/

CAIRO,EGY **+201148982821** **yasminabarakat1990@gmail.com**

PROFILE

Junior software tester with professional frontend-development experience and hands-on practice in manual, web, responsive and database testing. Creates test plans, scenarios and test cases; investigates defects; and documents clear evidence. Currently developing practical API and automation testing skills. ISTQB Certified Tester Foundation Level certified.

EXPERIENCE

Frontend Developer **OCT 2024 – DEC 2025**

Anasco International Group — [Cairo, Egypt]

- Designed and developed responsive, user-friendly web interfaces.
- Collaborated with backend teams to integrate APIs, ensuring seamless data flow and robust client-server interactions, and validated frontend behavior for returned data and errors.
- Debugged and resolved UI/UX issues, boosting platform reliability and functionality across multiple devices.
- Maintained and updated existing codebases while adhering to best practices in frontend development, ensuring maintainability and scalability.
- Used Git and GitHub to collaborate on changes and maintain traceable code updates.
- Applied usability, accessibility and responsive-design checks to student-facing web interfaces.

Tech Stack: React.js, Next.js, Javascript, Bootstrap, Laravel

Presales Engineer Intern **JAN 2024 – MAY 2025**

Integrated Technics — [Cairo, Egypt]

- Understand clients needs and requirements.
- Provide knowledge of various security solutions (hardware, software, integration).
- Design solutions that meet customer needs.
- Create technical proposals for systems (CCTV, Access control, etc).
- Ensure solution is efficient and compliant with regulations and standards.
- Collaborate with sales team to translate customer needs into viable sales opportunities.

SKILLS

- **Testing:** Manual, functional, smoke, regression, exploratory, UI, usability, responsive and cross-browser testing.
- **Test design:** Test plans, test scenarios, test cases, boundary-value analysis, equivalence partitioning and decision tables.
- **Database testing:** SQL queries, CRUD validation, data integrity, joins and result verification.
- **API testing in progress:** REST concepts, requests, responses, status codes, headers and JSON validation.
- **Automation testing in progress:** Developing hands-on experience with test automation concepts, selectors, assertions and automated test scripts.
- **Defect tracking and tools:** Jira, Chrome DevTools, Git and GitHub
- **Supporting knowledge:** HTML, CSS, JavaScript, React, Next.js, Python, Java and C/C++
- **Soft Skills:** Problem-Solving, Communication, Team Collaboration, Adaptability, Time Management, Researching.

EDUCATION

Computer Engineering and Software Systems **SEP 2017 - Jun 2022**

- Faculty Of Engineering Ain Shams University.
- Graduation Project Grade: A

LANGUAGES

- Arabic (Native)
- English (Fluent)
- German (A1)

QA PORTFOLIO PROJECT **IN PROGRESS**

Practice Software Testing Case Study

Application under test: with-bugs.practicesoftwaretesting.com

- Explored the application and documented its key workflows, risks and expected behavior against a reference application.
- Prepared a structured test plan with scope, exclusions, environment, entry and exit criteria, and deliverables.
- Designed test scenarios covering product discovery, authentication, cart and other customer workflows.
- Currently preparing detailed test cases, execution evidence and defect reports.
- Continuing the case study with detailed test cases, API validation and an execution summary.
